Speaker:

Mr. Aurangzaib Ali Anwar

About Speaker:

He completed his M.Sc in food sciences and technology. He is currently the executive director of Sohaira Foods International and an innovative and technical consultant at MKS food international Pvt. Ltd.

He has worked with several other food industries including Hilal Foods, Kiran Food industries, Elegant Foods, and Winner Foods.

He has vast experience in food production, quality assurance, and operation management.

Important points related to event:-

- For being a Food Engineering student, it was such an informative session.
- Focusing on learning different skills and being a creative engineer for well-known companies.
- Learn how to sell yourself to a company.
- In the initial 3 years, work less and learn more.
- Afterwards, once your worth has been created, being a beneficial employee for any of the companies that increases their market value and sales.
- As era is now modernised, learn more about automation technology rather than manual working.
